**MESSAGE**

The benefits of this Scheme should reach the common man across the length and breadth of the country. With Jan Aushadhi, a common man can reduce his out of pocket medical expenses drastically. The medicines from our country are exported to many developed countries. It is a matter of pride to us. People across the world trust the generic medicines. Jan Aushadhi has now been repositioned to achieve its objectives to the full extent. with the current team, this objective seems achievable and realistic. The poor should not be deprived of the treatment due to high cost of medicines. Jan Aushadhi should be within the reach of all. It is our priority to provide cheap generic medicines to all. . By the end of next year, we have planned to open 3000 stores. I wish the BPPI team the very best, trusting that they will put all out efforts in making this program a grand success.
